MODEL 163.113 /128 /136 /154 /157 /172 /174 /175

1 Side airbag
2 Attachment hole
3 Locating hole
4 Locating pin

P72.10-2740-06

ℹ Due to a design modification to the door skin, both parts must be checked when **exchanging** the door or the sidebag.

1	Check the replacement door to see if the aligning bore for the sidebag is present	ℹ Should the replacement door **not** have an aligning bore and the sidebag is equipped with a fixing pin: # Modify the front door	SM72.10-P-0004A
2	Check to see of the fixing pin is present for the replacement sidebag	ℹ If there is **no** fixing pin present on the sidebag, the door does **not** need to be modified.
